TOWN OF EXETER
ANNUAL REPORT

FOR THE YEAR ENDING DECEMBER 31, 1981

This year's town report photos depict part of a gift from Milliken & Co., Spartanburg, S.C., to Exeter in 1981, when the firm closed Clemson Fabrics in Exeter. On the front cover is the dam at Great Bridge and on the back cover, Pickpocket Dam. Water rights to Exeter River, dams, some land, and the factory waste treatment plant were accepted by a special town meeting in September. (Photos by Ron Goodspeed, The Exeter News-Letter)

TOWN OF EXETER

ANNUAL REPORTS

OF THE

SELECTMEN and TREASURER

THE TOWN MANAGER

AND ALL OTHER

OFFICERS and COMMITTEES

FOR THE

Financial Year Ending December 31

1981

PLEASE DO NOT WASTE THESE REPORTS
Ordinarily one to a family is sufficient.

ETHEL B. DOE

June 25, 1916 — November 27, 1981

Ethel Doe had a varied professional career as a French teacher and reading specialist at a number of schools and colleges, but her true vocation emerged when she, a native of Exeter, returned to Exeter to live. That vocation was the town itself and all the people in it. She touched our lives thoughtfully and beneficently through the Red Cross and the Exeter Hospital, the Exeter Area Group Home and Youth Resource Team, and Rockingham Child and Family Services. She was for many years active in the Exeter Players and in Christ Church. From 1975 until her death she served as a Selectman. In this role she had particular influence in her work on the Planning Board, in the formation of the Master Plan, and in the building of the Public Safety Complex. We miss her good counsel and her social and personal concern; perhaps most of all, we miss a daily sight that became familiar and endearing to many — Ethel and her friend Scamper enroute to the Town Offices from her home on High Street and back again.

Town Warrant

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Exeter, in the County of Rockingham, in said state, qualified to vote in town affairs:

You are hereby notified to met at the Town Hall, in said Exeter, on Tuesday, the ninth day of March next, at eight o'clock in the forenoon, to choose all necessary Town Officers for the ensuing year, by official ballot, and to take other action required to be inserted on said official ballot; the polls to open at eight o'clock in the forenoon and to close not earlier than eight o'clock in the evening, and thereafter to reconvene at the Exeter High School gymnasium on Monday, March 15, 1982, at seven o'clock in the afternoon, for the purpose of acting on all other matters to come before the meeting.

ARTICLE 1

To choose by ballot and plurality vote one (1) Selectman for the term of three (3) years.

ARTICLE 2

To choose by ballot and plurality vote one (1) Selectman for the term of two (2) years.

ARTICLE 3

To choose by ballot and plurality vote three (3) members of the Library Committee for the term of three (3) years.

ARTICLE 4

To choose by ballot and plurality vote one (1) member of the Library Committee for the term of one (1) year.

ARTICLE 5

To choose by ballot and plurality vote one (1) Trustee of Trust Funds for the term of three (3) years.

ARTICLE 6

To choose by ballot and plurality vote one (1) Trustee of the Robinson Fund for the term of seven (7) years.

ARTICLE 7

To choose by ballot and plurality vote one (1) Trustee of the Swasey Parkway for the term of three (3) years.

ARTICLE 8

To choose by ballot and plurality vote one (1) Supervisor of the Check List for the term of six (6) years.

ARTICLE 9

To choose by ballot and plurality vote one (1) Moderator for the term of two (2) years.

ARTICLE 10 - Zoning Amendment #1

Are you in favor of the adoption of Amendment #1 as proposed by the Planning Board for the Town zoning ordinance as follows:

Amend Article 6, Section 51, Off-Street parking, by adding a new paragraph to read as follows:

Any change of the use of a premises to non-residential use and/or multi-family use, or to another different non-residential use, or any expansion of the number of such multi-family or non-residential uses, shall provide off-street parking as required herein, excepting that this provision will not apply to premises within the C-1 or WC zoning districts. However, when a new building or structure is erected, off-street parking shall be provided in all districts, including the C-1 and WC districts.

ARTICLE 11 - Zoning Amendment #2

Are you in favor of the adoption of Amendment #2 as proposed by the Planning Board for the Town zoning ordinance as follows:

Amend the Zoning Map by rezoning Kimball Island so-called, on Chestnut Hill Avenue, from "Land Conservation" to become part of the "WC, Waterfront Commercial" district, as shown hereon:

Source: Exeter Tax Map

ARTICLE 12 — Zoning Amendment #3

Are you in favor of the adoption of Amendment #3 as proposed by the Planning Board for the Town zoning ordinance as follows:

Amend Article 3.20 "Zoning Map Title" by deleting reference to "Map #01-10, dated September, 1974, as promulgated by the Department of Housing and Urban Development" and "Sections 5.66 and 6.12 of", and inserting in place thereof, "and Regulatory Floodway as delineated on the Flood Insurance Rate Maps and Flood Boundary and Insurance Rate Maps and Flood Boundary and Floodway Maps for Exeter, N.H., dated May 17, 1982, as prepared by the Federal Management Agency-Federal Insurance Administration", so that Article 3.20 will read as follows:

3.20 Zoning Map-Title

Said districts are bounded as shown on the map entitled "Zoning Map of the Town of Exeter," adopted March 6, 1973, and certified by the Town Clerk which accompanies and which, with all explanatory matter thereon, is hereby made a part of this ordinance. The Flood Hazard Area and Regulatory Floodway, as delineated on the Flood Insurance Rate Maps and Floodway Maps for Exeter, N.H., dated May 17, 1982, as prepared by the Federal Emergency Management Agency-Federal Insurance Administration, and as amended, shall become a part of the Zoning Map as previously described. When a property is located in a Flood Hazard Area, all new construction and substantial improvements shall conform to the requirements herein and of the Land Subdivision Regulations, Site Plan Review Regulations, as well as those for the underlying zone.

Also:

Amend Article 4, Section 20, "Schedule 1: Zoning Schedule of Use Controls" by adding a new district identified as "F-Flood Hazard District" and establishing regulations therefore as follows: under the column "Permitted Principal", by adding the words, "Such uses as the underlying zone may permit, excepting that within the designated "floodway", mobilehomes are prohibited, except in existing mobilehome parks; also encroachments in the "floodway", including fill, new construction, substantial improvements to existing structures, and other development are prohibited unless certification by a registered professional engineer is provided by the application demonstrating that such encroachment shall not result in any increase in flood levels during the occurrence of the 100 year flood."

ARTICLE 13 — Zoning Amendment #4

Are you in favor of the adoption of Amendment #4 as

proposed by the Planning Board for the Town zoning ordinance as follows:

Amend Article 5, Section 11, of the Town of Exeter Zoning Ordinance, by adding the following as the first paragraph in that text:

Notwithstanding that it may be a lot of record at the Rockingham County Registry of Deeds, as of the effective date of this paragraph, any undeveloped nonconforming lot of an owner which abuts another nonconforming lot or lots of that owner shall, by operation of law, be merged with said nonconforming lot or lots, so as to form a conforming or nearly conforming lot. Except where both nonconforming lots have been developed for use as a principal residence, no nonconforming lot abutting a nonconforming lot or lots of the same owner shall be conveyed or otherwise transferred without complying with the merger requirements of this paragraph, by submission of an appropriate plan to the Exeter Planning Board, prior to recording at the Rockingham County Registry of Deeds.

ARTICLE 14 — Zoning Amendment #5

Are you in favor of the adoption of Amendment #5 as proposed by the Planning Board for the Town zoning ordinance as follows:

Amend Article 5, "Supplementary Lot Regulations" by adding a new paragraph titled "5.33 — Permissible Structure" to read as follows:

Only one principal building shall be allowed on a lot in a residential or mobilehome district unless otherwise herein provided.

ARTICLE 15 — Zoning Amendment #6

Are you in favor of the adoption of Amendment #6 as proposed by the Planning Board for the Town building code ordinance as follows?:

Amend the National Building Code as adopted by the Town by changing "Chapter XIX" titled "Flood Hazard Zones"; so that it reads:

The following regulations shall apply to all lands designated as flood hazard areas by the Federal Emergency Management Agency in its "Flood Insurance Study for the Town of Exeter, N.H.", together with the associated Flood Insurance Rate Maps and Flood Boundary and Floodway maps of the Town of Exeter, dated May 17, 1981, and as amended, which are declared to be a part of this Ordinance.

Also:

1905 All proposed development in any special flood hazard area shall require a building permit. The term "development" is defined to mean "any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations".

1906 The Building Inspector shall review all building permit applications for new construction or substantial improvements (meaning any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure either (a) before the improvement or repair is started, or (b) if the structure has been damaged, and is being restored, before the damage occurred) to determine whether proposed building sites will be reasonably safe from flooding.

The term "substantial improvement" does not include either:

1. any project for improvement of a structure in order to comply with existing State or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or
2. any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

1907 Where new and replacement water and sewer systems (including on-site systems) are proposed in floodprone areas, the applicant shall provide the Building Inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters and that on-site waste disposal systems be located to avoid impairment to them or contamination from them during flooding.

1908 The Building Inspector shall maintain for public inspection, and furnish upon request, any certification of flood-proofing, and the information on the elevation (in relation to mean sea level) of the level of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement, and if the structure has been flood-proofed, the elevation (in relation to mean sea level) to which the structure was flood-proofed. This information must be furnished by the applicant.

The following requirements shall apply in specific zones designated on the Flood Insurance Rate Maps:

1909 In unnumbered "A" zones, as defined on the community's FIRM map, the Building Inspector shall obtain, review, and reasonably utilize any base flood elevation data available from a Federal, State, or other source, until such other data has been provided by the Administrator, as criteria for requiring that (i) all new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the base flood level, and (ii) that all new construction and substan-

tial improvements of non-residential structures have the lowest floor (including basement) elevated or flood-proofed to or above the base flood level.

1910 In zones "A1 through A30", as defined on the community's FIRM map, for new construction and substantial improvements, the Building Inspector shall require that:

1. Residential structures have the lowest floor (including basement) elevated to or above the base flood level.
2. Non-Residential structures have the lowest floor (including basement) elevated to or above the base flood level; or together with attendant utility and sanitary facilities, be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

1911 In zones "A1 through 30", where flood-proofing is used in lieu of elevation, a registered professional engineer or architect shall certify to the Building Inspector that the flood-proofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood.

1912 In zones "A1 through A30", for new, substantially improved, or expanded mobilehome parks, and for mobilehome placement not in existing mobile home parks, the Building Inspector shall require that:

1. Stands or lots are elevated on compacted fill or on pilings so that the lowest floor of the mobilehome will be at or above base flood level;
2. Adequate surfacing drainage and access for the hauler are provided; and
3. In the instance of elevation on pilings:
 - a. lots are large enough to permit steps;
 - b. piling foundations are placed on stable soil and are no more than ten feet apart; and,
 - c. reinforcement is provided for pilings that extend more than six feet above the ground level.

ARTICLE 16 — Zoning Amendment #7

On petition of Dorothy Parker, are you in favor of the adoption of Amendment #7, as proposed by the voters of this town as follows?:

"Any fence erected upon property in the Town of Exeter shall be located at least six (6) inches from the property line of any abutter."

The Planning Board disapproves of this petition.

ARTICLE 17 — Zoning Amendment #8

On petition of John Cole, are you in favor of the adoption of Amendment #8, as proposed by the voters of this town as follows?:

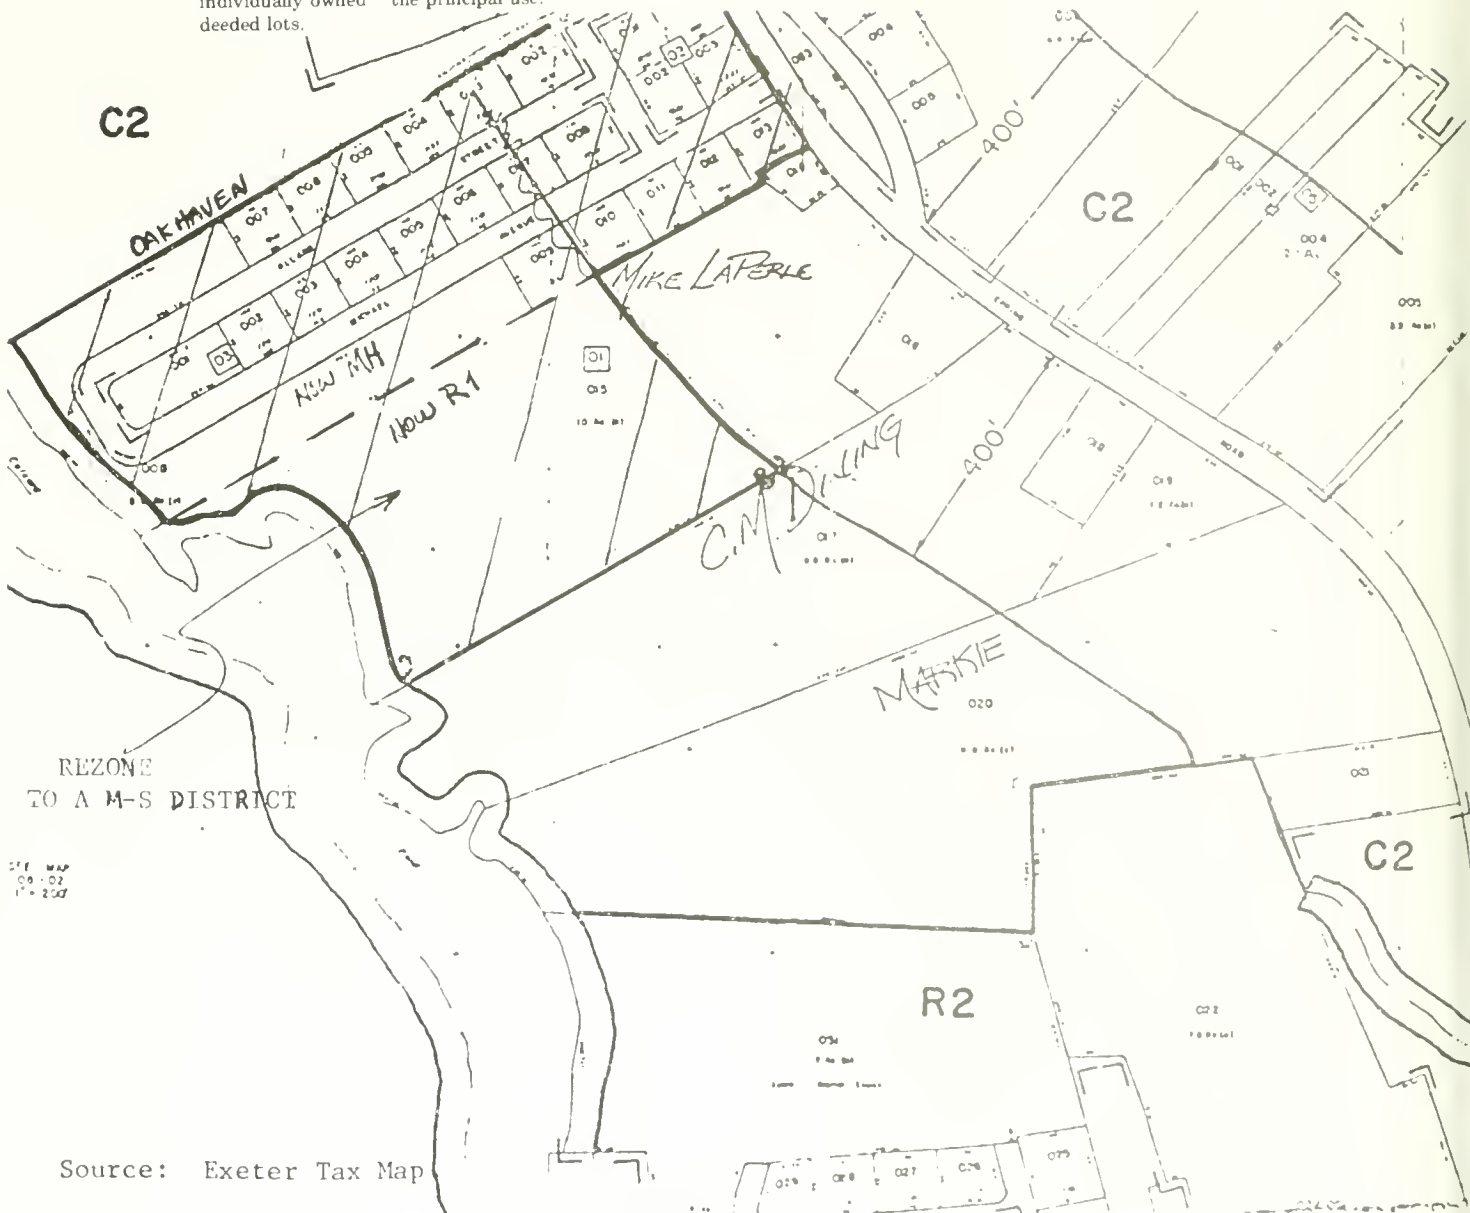

- (a) Amend the zoning map as shown on attachment A;
- (b) Amend Article 4, Section 20, Schedule I — Zoning Schedule of Use Controls to include a new district "M-S Mobile Homes Subdivision District" so that it reads:

District	Permitted Principal	Permitted Accessory	Exceptions
M-S Mobile Homes Subdivision Lots	Mobile homes are permitted in subdivisions created for the placement of mobile homes on individually owned deeded lots.	Private garage. Customary home occupations. Other accessory uses customarily incidental to the principal use.	Expansion of non-conforming use.

- (c) Amend Section 4.30 Schedule II — Dimensional Requirements to add to the M District the M-S District so that dimensional requirements are identical for the two types of mobilehome districts.

The Planning Board approves of this petition.
ATTACHMENT "A" — Proposed Zoning Map Amendment

Rezone Oak Haven and rear land of Michael LaPerle to a "M-S Mobile Homes Subdivision District"

ARTICLE 18

On petition of J. Harold E. Carbonneau and others, to see if the Town will vote to adopt the following Article: "Shall we adopt the provisions of Revised Statutes Annotated 72:43-f for the adjusted elderly exemptions from property tax? These statutes provide for the following exemptions, based on assessed value, for qualified taxpayers: for a person 65 years of age up to 75 years, \$10,000; for a person 75 years of age up to 80 years, \$15,000; for a person 80 years of age or older, \$20,000. To qualify, the person must have been a New Hampshire resident for at least 5 years; own the real estate individually or jointly, or if the real estate is owned by his spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of less than \$10,000 or if married a combined net income of less than \$12,000, and own net assets of \$30,000 or less, excluding the value of the person's residence."

ARTICLE 19

To choose all other necessary Town Officers, Auditors, or Committees for the ensuing year.

ARTICLE 20

To see what sums of money the Town will raise and appropriate for the maintenance of the poor, for repairing and building bridges, for repairing and building sidewalks, for building drains and sewers, for oiling streets, for payment of the Town depts, for lighting streets, for defraying expenses of decorating the graves of soldiers, for payment of firemen during the ensuing year, and for other charges arising within the Town.

ARTICLE 21

To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, and pursuant to New Hampshire Revised Statutes Annotated, Section 33.7 and Section 33:7-a to incur debt for temporary loans in anticipation of 1982 taxes, and in anticipation of any bond issue which may be voted by the Town, and to issue therefor notes of the Town payable within one (1) year after their date, and to pay or renew the same by issue of new notes payable within one (1) year after the date of the original publication.

ARTICLE 22

To see if the Town will authorize the Board of Selectmen to apply for, accept, and expend money from the state, federal, or another governmental unit or a private source which becomes available during the year in accordance with the procedures set forth in New Hampshire Revised Statutes Annotated Chapter 31, Section 95-b, requiring that such sums be used only for legal purposes for which a town may appropriate funds; and provided that the Selectmen hold a prior public hearing on the action to be taken; and that town funds not be expended.

ARTICLE 23

To see if the Town will authorize the Board of Selectmen to apply for, accept, and expend money from the Federal Government under the Coastal Energy Impact Planning program to study the use of Exeter River for

hydropower generation and resolve possible detrimental effects of power plant discharge on fish, migration, and use of the fish ladder, and that the selectmen be further authorized to contribute as the town's share of the funding, the time of the Planning Department personnel.

ARTICLE 24

To see if the Town will vote to fix the annual salary of the Town Clerk at Nineteen thousand four hundred ten and sixty-five hundredths (\$19,410.65) Dollars, and to raise and appropriate an additional sum of One thousand four hundred thirty-seven and eighty-three hundredths (\$1,437.83) Dollars above the sum budgeted therefor.

ARTICLE 25

To see if the Town will vote to fix the annual salary of the Tax Collector at Fourteen thousand nine hundred thirty-three and eighty-nine hundredths (\$14,933.89) Dollars, and to raise and appropriate an additional sum of One thousand one hundred six and twenty-one hundredths (\$1,106.21) Dollars above the sum budgeted therefor.

ARTICLE 26

To see if the Town will vote to fix the annual salary of the Town Treasurer at Five thousand four hundred (\$5,400.00) Dollars, and to raise and appropriate an additional sum of Four hundred (\$400.00) Dollars above the sum budgeted therefor.

ARTICLE 27

To see if the Town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the Town by tax collector's deed by public auction or advertised sealed bid.

ARTICLE 28

To see if the Town will vote to raise and appropriate the sum of Thirteen thousand seven hundred forty-two (\$13,742.00) Dollars for the purpose of contracting for mosquito control services for the period of March 1982 to March 1983.

ARTICLE 29

To see if the Town will vote to appropriate the sum of Seventy-five thousand (\$75,000.00) Dollars for five sprinklers and storm windows for the Town Hall, and improvements to the heating system in the Town Office Building, and authorize the withdrawal of the amount received for this purpose from the Federal Revenue Sharing Fund.

ARTICLE 30

To see if the Town will vote to appropriate the sum of Fifty thousand (\$50,000.00) Dollars for the exploration for additional water supply by the installation of test wells and professional services required for said exploration, and authorize the withdrawal of the amount received for this purpose from the Federal Revenue Sharing Fund.

ARTICLE 31

To see if the Town will vote to establish a Capital Reserve Fund for a new fire truck, and raise and appropriate the sum of Forty thousand (\$40,000.00) Dollars for said Capital Reserve Fund and authorize the withdrawal

of this sum for this purpose from the Federal Revenue Sharing Fund.

ARTICLE 32

To see if the Town will vote to establish a Library Capital Reserve Fund and to raise and appropriate the sum of Twenty-five thousand (\$25,000.00) Dollars for said Library Capital Reserve Fund and authorize the withdrawal of this sum for this purpose from the Federal Revenue Sharing Fund.

ARTICLE 33

To see if the Town will vote to raise and appropriate the sum of Twelve thousand six hundred thirty (\$12,630.00) Dollars as partial reimbursement to the Exeter Area Visiting Nurses Association, Inc. for providing continued home health care services to residents of the Town of Exeter.

ARTICLE 34

To see if the Town will vote to raise and appropriate the sum of Six thousand six hundred forty-six (\$6,646.00) Dollars as its contribution to the Southeastern New Hampshire Regional Planning Commission.

ARTICLE 35

To see if the Town will vote to raise and appropriate the sum of Three thousand (\$3,000.00) Dollars to defray a portion of the cost of service rendered by the Area Homemaker-Home Health Aide Service, Inc.

ARTICLE 36

On petition of Mary A. Kane and others, to see if the Town will vote to raise and appropriate the sum of Twenty-three thousand six hundred (\$23,600.00) Dollars for the Town's participation in the expenses of the Exeter Area Youth Group Home.

ARTICLE 37

On petition of Charles M. Swift and others, to see if the Town will vote to raise and appropriate the sum of Five thousand eight hundred three (\$5,803.00) Dollars to assist Rockingham Child and Family Services, a private, non-profit social service agency.

ARTICLE 38

On petition of Joseph E. Wheeler and others, to see if the Town will vote to raise and appropriate the sum of Three thousand nine hundred sixty (\$3,960.00) Dollars for the Greater Raymond Community Action Center, a part of Rockingham County Community Action Program, Inc., a private, non-profit, anti-poverty agency.

ARTICLE 39

On petition of Priscilla McComb and others, to see if the Town will vote to raise and appropriate the sum of Two thousand (\$2,000.00) Dollars to assist the Newmarket/Exeter Child Care Centers, Inc., a non-profit child care organization.

ARTICLE 40

On petition of Calvin A. Lewis and others, to see if the Town will vote to raise and appropriate the sum of Eight thousand (\$8,000.00) Dollars for the Seacoast Regional Counseling, Inc.

ARTICLE 41

On petition of George Barter and others, to see if the Town will vote to raise and appropriate the sum of Eight hundred (\$800.00) Dollars to help defray some of the expenses for fiscal year 1982-83 of the Retired Senior Volunteer Program.

ARTICLE 42

On petition of Paul R. Mahoney and others, to see if the Town will vote to raise and appropriate the sum of Four thousand two hundred forty (\$4,240.00) Dollars for Seacoast Big Brother/Big Sister, a non-profit volunteer organization, for operating expenses.

ARTICLE 43

On Petition of Zoe K. Covert and others, to see if the Town will vote to raise and appropriate the sum of One thousand seven hundred (\$1,700.00) Dollars for A Safe Place, a shelter for battered women and their children operated by the Seacoast Task Force on Family Violence, a non-profit organization.

ARTICLE 44

On petition of Paul R. O'Connor, Sr. and others, to see if the Town will vote to raise and appropriate the sum of Two hundred (\$200.00) Dollars for the Portsmouth Kittery Armed Services Committee, Inc., a non-profit organization.

ARTICLE 45

On petition of Nora Sfalanga and others, to see if the Town will vote to call upon the members of the New Hampshire Congressional Delegation to support or co-sponsor a resolution in the United States Congress calling for a joint U.S.-Soviet nuclear arms freeze.

ARTICLE 46

To see if the Town will vote to authorize the Selectmen to convey to the owner of the premises presently owned by the Estate of Ziekmas Burke, a strip of land not exceeding fifteen (15) feet in width, extending along the southerly side of Parcel IV of the Pickpocket Dam property, in exchange for a release by the grantee of all right, title, interest, or claim, to a purported right-of-way over any other portion of said Parcel IV, all surveying, legal, or other costs to be borne by the grantee.

ARTICLE 47

To transact any other business that may legally come before said meeting.

Given under our hands and seals this 22nd day of February, in the year of our Lord nineteen hundred and eighty-two.

Evelyn H. Zarnowski,
John W. Cole,
Richard F. Niebling,
Robert H. Rowe,
Board of Selectmen of Exeter.

Selectmen

As the Selectmen look back over 1981, several events stand out: The revaluation of land and buildings; the completion of the Elderly Housing Complex; the Clemson Fabrics gift to the Town of land, river rights, and a sewage treatment plant; the reorganization of Town departments; and, toward the end of the year, negotiations of wages and benefits with those public safety employees who are unionized.

Inflation has necessarily meant frequent revaluations. This year's followed on one in 1978, which in turned followed on one in 1974-75 (one year land, the next year buildings). The 1981 revaluation caught up with the tremendous jump in values that had occurred in three years. Though the real estate market turned very sluggish during 1981, resulting in a slowing of increases, it remains to be seen whether this showing is only temporary or raises hopes of the hoped-for price stability that will obviate the need of such frequent revaluation.

Eager tenants moved into the Elderly Housing Complex in early fall. The handsome and comfortable building constructed with federal funds by the Housing Authority, is the second major public building to go up in recent years. Like the Public Safety Complex, it meets a long-felt need and enhances its neighborhood. The Clemson gift, an equally impressive addition to public ownership, means that control of the Exeter river and its dams is now in the hands of the Town. With the river of increasing importance for water supply, this generous gift stilled apprehensions as to what would happen to Clemson's river rights upon the firm's departure, and meant a great step toward the goal of protecting the watershed. Use of the sewage treatment plant is under study, as is the possibility of a hydroelectric installation at the dam near String Bridge.

The reorganization of most of the town employees into two major departments — Public Works under

Robert Strout, Public Safety under Thomas Powers — that the Town Manager effected last spring has been one of the reasons why the Town has been able to stay within the 2.75 limitation on spending while continuing to supply accustomed services. The financial situation remains difficult, however, particularly in the face of cutbacks in state aid, the restiveness of those town employees who believe they are entitled to more compensation, and the stiffening of taxpayer resistance to increased property taxes. At this writing (February 8), the Selectmen have concluded amicable negotiations with the firefighter bargaining unit but have not yet satisfied the police.

Evelyn Zarnowski,
Chairman,
John Cole,
Vice-Chairman,
Richard F. Niebling,
Clerk,
Robert H. Rowe.

Town Manager

The Town Fund Balance (surplus) increased by \$232,000.00 during 1981. Approximately \$200,000.00 of this could be used toward the 1982 budget.

The State and Federal Governments are undergoing serious financial difficulties and it looks as if less and less financial aid will filter down to the towns. Sooner or later, this will confront the Town Meeting with the problem of cutting services

and/or increasing the property tax effort. Since 1978, the 2.75 tax cap has stabilized the property tax effort for the Town portion of the tax bill after considering the effects of inflation.

Six full-time positions and one half-time position have been eliminated since a year ago.

The Public Safety Department and Public Works Department have been formed in an attempt to try to

better utilize equipment and personnel.

I thank the Selectmen, Department Heads, Town Employees, and Board and Commissions for their dedicated service to the Town of Exeter.

Respectfully submitted,
Donald E. Chick,
Town Manager.

**P.O. BOX 459
EXETER, NEW HAMPSHIRE 03833**

Town of Exeter
Selectmen's Office
Exeter, N.H. 03833

Dear Selectmen:

We have examined the financial statements of the Town of Exeter for the year ended December 31, 1981, and have issued our report thereon dated February 16, 1982. As a part of our examination we reviewed and tested the Town's system of internal control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal control is to provide reasonable but not absolute assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgements by those managing the Town's affairs.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgement, carelessness or any other of several factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented intentionally by those managing the Town's affairs with respect to the estimates and judgements required in the preparation of financial statements.

Further projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the Town of Exeter's system of internal accounting control for the year ended December 31, 1981, which was made for the purpose set forth in the first paragraph above, would not necessarily disclose all weaknesses in the system. However, such study and evaluation disclosed the following conditions that we believe to be areas which need updating and improvement.

**MANAGEMENT LETTER
OF
TOWN OF EXETER
As of December 31, 1981**

Property and Equipment:

The Town does not maintain records of general fixed assets such as property and equipment as a matter of policy. The recording of fixed assets would fulfill the need to provide for physical dollar value control, and establish accountability for general government capital expenditures over the year.

With the recording of fixed assets, the related depreciation could be determined on an annual basis for the purpose of measuring total cost of governmental services and evaluating the efficiency of programs. This comment has been made in prior years reports.

Purchasing, Receiving and Accounts Payable:

The monitoring of expenditures could be controlled efficiently with the requirement of a mandatory purchase order system. It should be pointed out that some departments use it now, however, most do not.

The purpose of this system would be; good accounting control which means better safeguarding of assets, such as protection against theft, quantity errors, extension errors and receiving errors to mention but a few reasons. Persons receiving goods would be required to sign for them as another safeguard. The purchase order system would result in a more efficient accounting for expenditures. Again costs should not outweigh the benefits when considering or implementing a system. However, such disclosures should be made for future decisions in updating and improving.

Recording of accounts payable and encumbrances have not been maintained in the Town's accounts as a matter of policy. Depending on the nature and amounts of the payables or encumbrances it could lead to a distortion of the monthly financial data being reviewed and acted upon.

It is understood that the Town's officials are very cost conscious and the development of a system of accounting for payables and encumbrances should be discussed. The additional information provided through these accountings would be reflected in the expenditure accounts. This would update the accounts and the review of actual versus budgeted can be more accurately acted upon. Such procedures would also comply with generally accepted accounting principles applicable to governments for using the modified accrual basis of accounting. This comment has been made in prior years reports.

Accounts Receivable - Enterprise Funds:

Upon implementation of the recommendations mentioned in the cash receipts and revenues sections the process of controlling receivables should be more efficient and less time consuming for all involved.

With continued reliance and utilization of the bookkeeping machine the reconciling and aging of receivables should be more efficient as well. Certain procedures must be established for controlling the receivables because of their material dollar value. The reconciling of individual accounts to a control card for each department every month must be done to insure the control of receivables on the bookkeeping machine. Such procedures would include reconciling receipts and charges as well.

**MANAGEMENT LETTER
OF
TOWN OF EXETER
As of December 31, 1981**

Revenues:

A proper system for accounting for revenues through receipts will develop a good control on all fund revenues. It will create a good management tool for reviewing cash flow and related matters.

In conjunction with this system the budgetary process can be initiated at the same time. The budgetary system for revenues will be handled the same way the expenditures are being handled currently. This process monitors the estimated revenues anticipated with actual revenues collected and develops overs and unders. By instituting this process within the revenue system better financial decisions can be made because the whole picture is being presented.

Inventories:

Presently an accounting of supplies and goods with future benefits are not maintained as a whole. Future discussion should include the need if any of taking inventory for items which will have an extended life and which benefit the Town.

Although not required, inventories give a more accurate financial picture of the actual assets maintained by the Town. The presentation of inventories on the financial statements, would increase assets and would increase fund balances through a reserve account. However, in no case should costs outweigh the benefits when considering a new procedure. This comment was made in prior reports.

General Recommendations:

Implementation of a Personnel Plan and Job Description Manual:

The future needs and improvements of the Town should include plans for adopting a personnel manual which would be distributed to all employees as well as the job description manual applicable to the employee.

This would provide guidance and efficiency to the Town and to the employees during everyday operations. Duties and responsibilities would be known and applicable wage and benefit programs including promotions, etc. available to all concerned.

Payroll Record Keeping Policies:

Procedures for controlling payroll records should include updating federal form W-4 (employee's withholding allowance certificate) on an annual basis for all the departments of the Town. These are Federal Regulations and should be done on a yearly basis.

Pursuant to the above policy, salary adjustments should be attached to the most current W-4 form showing authorization of the change.

**MANAGEMENT LETTER
OF
TOWN OF EXETER
As of December 31, 1981**

Trust Funds:

Dual signatures must be maintained over all investment type documents securing the funds for the Town and protecting the trustee accordingly.

Presently most of savings passbooks and certificates of deposit have single signatures on their authorization cards. For proper internal accounting control for safeguarding assets a dual system must be used.

At this time we would like to thank everyone involved for their assistance during the audit. Any questions relating to the above management letter will be discussed in detail upon request. We look forward to serving you in the future.

Very truly yours,

Giordani & Lortie, Prof. Assn.

Board of Selectmen
Town of Exeter
Exeter, New Hampshire 03833

We have examined the combined financial statements of the Town of Exeter as of and for the year ended December 31, 1981, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town of Exeter has not maintained a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial statements.

In our opinion, except for the effects of the omission of a statement of general fixed assets as discussed in the preceding paragraph, the combined financial statements referred to above present fairly the financial position of the Town of Exeter at December 31, 1981, and the results of its proprietary fund types for the year then ended, in conformity with generally accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The information has been subjected to the auditing procedures applied in the examination of the combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

We have examined the financial statements of the various funds and account groups of the Town of Exeter for the year ended December 31, 1981, and have issued our report thereon dated February 16, 1982. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In connection with our examination, we also performed tests of compliance with the Revenue Sharing and Antirecession Fiscal Assistance Acts and Regulations as required by Sections II C.3. and III C.3. of the Audit Guide and Standards for Revenue Sharing and Antirecession Fiscal Assistance Fund Guide issued by the Office of Revenue Sharing, U.S. Department of the Treasury, and compared the data on Bureau of Census Form RS-8 with the audited records of the Town of Exeter as required by Sections II C.4. of the "Guide".

Our findings are set forth below:

The Town did not publish within 30 days after the adoption of the budget, stating it was available for public inspection.

Based on these procedures, we noted the above of non compliance with the regulations but no differences between the data on Bureau of Census Form RS-8 and the records of the Town of Exeter for the year ended December 31, 1981.

Giordani & Lortie, Prof. Assn.
Certified Public Accountants

Dated February 16, 1982

TOWN OF EXETER

Notes to Financial Statements

1. Summary of Significant Accounting Policies:

The Town of Exeter operates under a Selectmen-Manager form of government and provides the following services as authorized by its charter: Public safety(police and fire), highways and streets, sanitation, health and social services, culture-recreation, education, public improvements, planning and zoning, and general administration services.

The accounting policies of the Town of Exeter conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

A. Fund Accounting:

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into six generic fund types and three broad fund categories as follows:

Governmental Funds

General Fund - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Capital Project Funds - Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. Such resources are derived principally from proceeds of general obligation bonds, notes, federal or state grants.

Proprietary Funds

Enterprise Funds - Enterprise Funds are used to account for operations A - that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or B - where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

TOWN OF EXETER
Notes to Financial Statements — Continued

Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. These include expendable trust, non-expendable trust, pension trust, and agency funds. Non-expendable trust and pension trust funds are accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Receipts and expenditures of each fund are governed by statutes or local law.

B. Fixed Assets and Long-Term Liabilities:

The accounting and reporting treatment applied to long-term liabilities associated with a fund are determined by its measurement focus. All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Long-term liabilities expected to be financed from governmental funds are accounted for in the general long-term account group, not in the governmental funds. The account group is not a fund. It is concerned only with the measurement of financial position, and not with measurement of results of operations.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities. They are instead reported as liabilities in the general long-term debt account group.

Fixed assets acquired or constructed for general government services are recorded as expenditures in the fund making the expenditure. Funds used to acquire general fixed assets and/or debt service payments or borrowings in connection therewith are accounted for as expenditures in the year payments are made. This is contrary to generally accepted accounting principles which require that general fixed assets be capitalized and accounted for in a separate fixed asset group of accounts.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities associated with their activity are included on their balance sheets. Their reported fund equity is segregated into contributed capital and retained earnings components.

TOWN OF EXETER
Notes to Financial Statements — Continued

Depreciation of all exhaustible fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight line method. The estimated useful lives are as follows:

Buildings	50 years
Mains, meters and hydrants	50 years
Equipment	8 years

C. Basis of Accounting:

The accrual basis is used for all fiduciary (and proprietary) funds. Governmental funds utilize the modified accrual basis whereby revenues are recorded when measurable and available. Expenditures are recorded when the liability is incurred (accrual basis) except:

- a. Disbursements for inventory items (material and supplies) are considered expenditures at the time of purchase.
- b. Prepaid expenses are not normally recorded.
- c. Accumulated sick pay is not accrued, but recorded as an expenditure when paid.

D. Budget:

The Town budget represents departmental appropriations as authorized by annual or special town meetings. The Selectmen may transfer funds between operating categories as they deem necessary. State statutes require balance budgets but provide for use of beginning fund balance to achieve that end.

E. Investments:

Investments are stated at cost.

F. Continuing Appropriations:

Appropriations for certain projects and specific items not fully expended at year-end are carried forward as continuing appropriations to the next year in which they supplement the appropriations of that year. At year end, continuing appropriations are reported as a component of fund balance and are detailed as follows:

Planning coordinator	\$ 2,330
Parks and recreation	8,920
Conservation commission	666
Mosquito control	1,107
Computer	1,181
	<u>\$ 14,204</u>

G. Taxes Collected for Others:

The Town collects taxes for the Exeter School District and Rockingham County which are remitted to them as required by law. These funds are accounted for as agency funds.

TOWN OF EXETER
Notes to Financial Statements — Continued

H. Inter-Fund Transactions:

During the course of normal operations, the Town has numerous transactions between funds including expenditures and transfers of resources to provide services, construct assets and service debt. The accompanying governmental and fiduciary funds financial statements reflect such transactions as transfers.

Proprietary funds record operating subsidies as other income, whereas the governmental fund paying the subsidy records it as a transfer.

2. Retirement Commitments:

Only members of the Police Department and Fire Department are members of the New Hampshire Retirement System. Under this plan, participants contribute annually a percentage of compensation which is fixed by law and dependent upon age when contribution begins. The Town's contribution rate for normal cost of the plan is based upon an actuarial valuation of the state plan as of July 1, 1981 and has been set at 14.12% for police and 11.26% for fire. The amount, if any, of excess of vested benefits over pension fund assets for the Town of Exeter is not available. The Town has no past service cost obligation. The total pension cost to the Town for the year was \$72,929.

The Town sponsors a pension and deferred compensation plan voted at the 1980 Town Meeting. All full time Town employees are covered except police and fire who are covered under the New Hampshire Retirement System. This was accounted as a separate pension trust fund in 1980. During 1981 all pension assets were transferred to American Health and Life Insurance Company and E.F. Hutton Life Insurance Company. The total pension cost to the Town for the year was \$9,173.

3. Property Taxes:

Annually, the Town establishes an amount for abatements, discounts and refunds of property and resident tax revenues known as overlay. All abatements, discounts and refunds are charged to overlay. Overlay is included under the classification of General Government in the financial statements.

As prescribed by law, the tax collector sells at tax sale, all uncollected property taxes in the following year after taxes are due, where applicable. The purchaser at tax sale has a priority tax lien on these properties and accrued interest at 11% to August 24th, after that date the interest rate increases to 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two year redemption period, the property is tax-deeded to the lien holder.

TOWN OF EXETER
Notes to Financial Statements — Continued

4. Special Revenue Fund Balances:

At December 31, 1981, the special revenue fund balances of \$134,107 consisted of:

Revenue Sharing fund	\$ 49,237
Anti-recession fund	44
District Court fund	14,391
Public Library fund	16,844
Swasey Parkway fund	9,111
Conservation Commission fund	25,649
Ambulance fund	18,831
	<u>\$ 134,107</u>

5. Segment Information for Enterprise Fund:

A summary of proprietary fund type - enterprise fund by water and sewer.

	WATER FUND	SEWER FUND
<u>Operating Revenues</u>	\$ 438,695	\$ 214,461
<u>Depreciation Expense</u>	40,509	79,845
<u>Operating Income (loss)</u>	11,076	(25,849)
<u>Net Income (loss)</u>	9,813	(19,542)
<u>Current Capital</u>		
Contributions	2,816,108	113,750
<u>Property, Plant and Equipment</u>		
Additions	2,788,474	19,961
<u>Net Working Capital</u>	154,748	111,056
<u>Bonds and Long-term Liabilities</u>		
Payable from operating revenues	18,750	6,250
Payable from other sources	39,108	113,750
<u>Total Equity</u>	\$ 771,913	\$ 1,323,664

During the year Clemson Manufacturing Company donated their water treatment plant and water rights to the Town. The treatment plant has an estimated market value of \$2,765,000. A study is underway to determine the actual fair market value.

6. Changes in Long-term Debt:

Bonds payable - January 1, 1981	\$ 1,449,455
New bonds issued:	
Telephone system	31,000
	<u>1,480,455</u>
Bonds retired	411,024
Bonds payable - December 31, 1981	<u>\$ 1,069,431</u>

General Obligation Bonds:

\$17,000; Robinson Female Seminary Bond due in annual installments of \$1,000 through 1998; interest at 1 percent.
 \$55,000; Exeter Industrial Park serial note due in annual installments of \$55,000 through 1982; interest at 3.93 percent.
 \$31,000; Telephone System note due in annual installments of \$4,429 through 1988; interest at 10.8 percent.

TOWN OF EXETER
Notes to Financial Statements — Continued

General Obligation Bonds: - continued

\$250,000; Construction Water Bond due in annual installments of \$25,000 through 1991; interest at 4.9 percent. (This issue is being paid by water enterprise fund).
 \$131,431; Water Project note due in annual installments of \$32,858 through 1985; interest at 6.5 percent.
 \$225,000; Sewerage Bonds due in annual installments of \$55,000 through 1985, interest at 3 percent.
 \$360,000; 2nd phase Sewerage Bonds due in annual installments of \$45,000 through 1989; interest at 4.25 percent.

7. Non-expendable Trust Funds:

The principal amount of all non-expendable funds are restricted either by law or specific terms of individual bequests, in that only income earned thereon may be expended. Principal and income balances at December 31, 1981 are as follows:

	PRINCIPAL	INTEREST	TOTAL
Cemeteries	\$ 25,099	\$ 12,386	\$ 37,485
Public Library	22,854	786	23,640
Colored People	500	598	1,098
Rhetorical	1,584	674	2,258
Athletics	500	40	540
Book Fund	1,000	81	1,081
American Windows	1,063	5	1,068
Exeter Relief Society	1,820	147	1,967
Lincoln Street Elementary Library	2,000	462	2,462
	<u>\$ 56,420</u>	<u>\$ 15,179</u>	<u>\$ 71,599</u>

8. Expendable Trust Funds:

Expendable Trust Funds (capital reserve funds) at December 31, 1981 are detailed as follows:

Road Fund	\$ 9,439
Sidewalk construction	931
	<u>\$ 10,370</u>

9. Contingent Liabilities:

The Town participates in a number of federally assisted grant programs, principal of which are the General Revenue sharing, Community Development Block grant, and Comprehensive Employment Training Act. These programs are subject to program compliance audits by the grantors or their representatives. The audits of these programs for or including the year ended December 31, 1981 have not yet been conducted. Accordingly, the Town's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

TOWN OF EXETER
Notes to Financial Statements — Continued

10. Related Party Transactions:

Disclosure is required for transactions that are material where an officer is associated with another entity that results in transactions being identified as related.

The treasurer of the Town is associated with a local bank that handles a large portion of the Town's financial matters. This includes checking accounts, savings accounts, short-term investments and notes payable.

Exeter Highway Department

I respectfully submit the annual report for the Town of Exeter's Highway Department.

During the year 1981 there were 17 storms with a total accumulation of approximately 56 inches of snow and 3 freezing rain storms.

Summer maintenance consisted of spring clean-up, cold patching of potholes, storm drain cleaning and repairs, and trimming and grooming of roadsides.

Due to the reorganization we were unable to do the things we had originally planned but we did get Allen Street, Daniel Street, Little River Road, Melody Lane, Penn Lane, Tremont Street, Wallace Road, and Stoney Brook Road done under our contract paving program.

TRA "B" Funds and Highway Subsidy Funds were used to reconstruct a portion of Portsmouth Avenue and overlay another portion along with a section of Hall Place.

The TRA "A" Funds were untouched again due to the reorganization.

Bell & Flynn, Inc., was the low bidder for the reconstruction and paving. Town employees raised the utilities on the streets that were paved.

Respectfully submitted,
Robert D. Strout,
Director of Public Works.

Water and Sewer

I respectfully submit the annual report for the Town of Exeter's Water and Sewer Departments.

Due to the reorganization and the need to train new people, we weren't able to do the projects orginally planned.

We were able to refurbish the filter beds at the Water Treatment Plant and still produce quality water that met State and Federal standards while they were being worked on.

A few services on High Street were changed over, and due to the State re-doing the Route 111 bridge, we had to move the piping over a foot to accommodate the new road width.

Some water pressure cleaning of sewer lines were done in the critical areas with hopes to do more in 1982.

All twelve water and sewer pumping stations were maintained in the usual manner.

Respectfully submitted,
Robert D. Strout,
Director of Public Works.

Public Safety Department

The Public Safety Department concluded its first year of operation in January of this year. The report that follows reflects the activity of all the divisions during the calendar year 1981. The new concept was a new and exciting change for all of us and has proven to be most effective, and from our evaluation a success. The transition meant a loss in personnel in certain areas, but in the end the consolidation of duties and resources make-up for any personnel changes.

As a Public Safety Agency, we are charged with the responsibility for the prevention and suppression of crime, fires and accidents. As such, we not only respond to emergency calls, but involve ourselves in numerous prevention programs, planning activities and coordination efforts with other area and town departments. Although the outward appearance of the department has not changed, several of the internal procedures and operations have been altered to meet the needs of the department and the community.

The field units continue to provide rapid, efficient response to your calls for help and we hope that their efforts are such that the loss of property and risk to life are minimum. Our employees have been rated as some of the most efficient in the area. Each unit in the field divisions have made numerous accomplishments in the past year, all with your safety in mind.

We welcome you all to visit with us and learn more about the services of your Public Safety Department.

Visiting Nurse Association

The Exeter Area Visiting Nurse Association, Inc. is a community health service that provides health care to individuals and families in their home, in the office, or in clinics. The care may be to prevent disease, promote, maintain, or restore health, or it may be to minimize the effects of illness or disability.

The Association is a non-profit agency governed by a Board of Directors. This Board is made up of people who are appointed by the selectmen in your town.

Funding for the Association comes from Medicare, Medicaid, patient fees, local taxes, and donations. Town appropriations make the service available to the town.

Home Care. Professional nurses give care to the sick and disabled under medical direction, teach and supervise care given by the family and others. Care is family centered and consideration is given to the total needs of the patient and family for health promotion and disease prevention and rehabilitation as well as care and support during the dying process. The service area was divided into districts this year with specific nurses providing care in their district. An answering device has been put into use this year making services more available. A marked increase in weekend visits has become apparent due largely to earlier hospital discharge.

Maternal and Child Health. Visits are made to new or expectant mothers to provide information and instruction in the care of themselves and their babies. Well Child Clinics are held two to three times a month and provide the following services: Physical exams by a local physician, immunizations, hearing and vision screening, blood and urine tests, instruction in growth and development. The clinics are for infants and preschool children. This program has been reorganized this year and the number of clinics increased to accommodate increased numbers of eligible children. The Exeter clinics are now held at the VNA office and a new developmental screening has been added. These changes were made to increase cost effectiveness as well as the quality of service.

Adult Health Screening. Clinics are held each month to check blood pressure and provide diet and medication counseling, and general health instruction. The High Blood Pressure Program was expanded during the last half of the year to include the young and middle-age adult population. Diabetes screenings are held through

the area, and tuberculosis testing is also done.

Flu Clinics. 12 Clinics are held each Fall (1 in each town) to immunize high risk (65 yrs. and over, or chronic disease) persons against influenza.

There Is No Charge

For Any Clinic Service

Continuing Care. An Agency nurse is in the local hospital part of each day to assist in planning, coordinating and arranging for care at home so that a person can move from hospital to home and continue to receive the required care he/she needs.

10,959 units of service were provided to residents of the service area between January 1, 1981 and December 31, 1981. (Individual town statistics are sent to the selectmen of each town).

The Agency works closely with other health and social agencies to ensure the most comprehensive care possible to the residents of the participating towns. The Agency continues to maintain its Medicare and Medicaid certification and is a member of the Community Health Care Association of New Hampshire.

The Association relies upon many

valuable volunteers who work at the clinics and in the office in addition to regular staff.

Information may be obtained by calling the Exeter Area Visiting Nurse office, Monday through Friday, 8:00 a.m. to 4:00 p.m., 772-2981 or write to 26 Prospect Avenue, Exeter, N.H. 03833.

Frank Murphy,
Alan Vrooman,
Charles Hulse,

*Exeter's Representatives,
Board of Directors.*

Recreation and Parks

The year, 1981, was one of the busiest that our department has seen in the last ten years. There are people participating in programs, trips, and meetings and classes at the Recreation Center. Our parks had a busy year with large numbers of people using the ball fields, swimming pool and tot lots.

The year started out with a few cuts in our budget that did hamper

some of the projects that were planned for the summer of '81. As it is, we made it through the year with some of the projects done while others were put off until another time.

The formation of a co-ed softball league was one of the new programs that involved many of our adults as did the sixteen men's and six women's teams to give a total of 26 adult softball teams here in Exeter. The youth baseball program had a good turnout again as did the soccer program. While on the subject of soccer, one of the select teams went to Nova Scotia to play in a tournament in early August and our girls' team won the state championship and will be going to the nationals in June of 1982. The hockey program saw the Bantams win their division in the 10th annual Jim Houston Tournament back in January.

As for revenue, we anticipated ninety-eight thousand dollars and took in more than one hundred and five thousand for the year that goes to help offset many of the programs.

Total Units of Service 10,959

Of that amount, thirty-five thousand helped pay for trips that took our townspeople to many areas along the eastern seaboard from Virginia to Nova Scotia. Trips were "the thing" in '81; we will see how they go in '82.

As we start 1982, the youth programs are up in some areas and down in others. There are still a large number of students participating in hockey, basketball, gymnastics, dancing, crafts, puppetry and mime.

What do we look for in '82? With a tight budget, we plan to do our best to hold our own with no major new programs. We will do what we can with what we have.

We look for tennis to make a return. If the summer youth program in 1981 was any indication, as we had more than 125 students participating in the National Junior Tennis League program, then we should have a resurgence of the sport.

We have acquired more land on the Kingston Rd., the Brickyard Pond for skating, and other areas for future development when the demand on our department and its present facilities makes it impossible for us to take care of the growing numbers of people.

I would like to thank the many volunteers that give of their time and money throughout the year. Without your help many of our activities would not be held. There is one thing to remember; you make the programs work, we are here to supply administrative guidance, clerical work, equipment, and facilities, but, it takes many volunteers to be able to offer the large number of programs that we do.

Respectfully submitted,
Douglas E. Dicey,
*Director,
Exeter Recreation &
Parks Department.*

Veterans Council

On Thursday, January seventh, nineteen hundred and eighty-two election of officers was held at the Exeter American Legion Post.

The officers elected for the coming year were as follows:

President, Donald Savage

Vice President, Russell Corbin

Secretary-Treasurer, Edward Fleming.

As the outgoing President I want to thank all of those who helped me during the past year. Particularly, the people of Exeter, the Veterans' Organizations, Gold Star Mothers, the Board of Selectmen and the Town Manager.

A sincere special appreciation for their outstanding efforts and accomplishments to Doris and Al Petit who gave of themselves for the benefit of the Veterans Council.

Respectfully submitted,
Irving D. Burke,
President, Veterans Council.

Public Library

Nineteen eighty-one wasn't a very good library year. All our hopes and hard work collapsed when the new library was overwhelmingly defeated at the May special town meeting.

Then the State budget crunch forced a re-evaluation of library programs at the state-wide level, and eventually everybody agreed to what some people had been saying for a long time: the State-wide Borrower's Card had to go.

Now, Exeter reported the third highest use of State-wide Cards in the whole system. Dropping out-of-town borrowers would almost half our registration (we lost 5,596 people). But book circulation only dropped by

about 500, which was more than covered in other items such as Museum passes, and total circulation rose by three thousand. Plus a flattering number of out-of-towners elected to pay for their cards.

We're still horribly crowded. We shifted the collection again: genealogies upstairs (we've now lost our meeting room), moving mysteries to the reading room and young people's books under the stairs. It's trying to fit five pounds into a three pound sack and it can't be done, but we have to keep trying. We want to show the best and most efficient use possible of our old building while we regroup, relying on the stronger Friends of the Library — a stronger economy — to give us the additional space we need.

Respectfully submitted,
Pam Gjetton,
Librarian.

Conservation Commission

During the year 1981, the Exeter Conservation Commission held monthly meetings, attended meetings of mutual interest with other Town Boards, and continued progress toward both short and long term goals of the organization.

As part of the commission's education and community involvement programs we sponsored two high school students to summer conservation camp at Bear Brook State Park. Also the Forestry students at the Exeter Area Vocational and Technical School were responsible for the preparation, maintenance and the planting of trees in the nursery.

During the year we experienced a small forest fire in Henderson Swasey

Park. Approximately three acres were damaged. Our sincere thanks to the Exeter Fire Department for quickly extinguishing the fire, which could have devastated the entire Park.

The Conservation Commission also actively supported the glass recycling program in the town and our thanks to those who participated. We hope that the program will continue.

The Commission thanks all those who helped us in our endeavors throughout the year.

Respectfully submitted,

Carl F. Anderson, Jr.

Chairman,

LaRu Lynch,

Sheila Duff,

Jody Pellerin

Frank Kozacka,

Clifton Mix,

Kenneth Lozeau.

Housing Authority

The Exeter Housing Authority achieved its goal of creating apartments for the elderly with the opening of Squamscott View Apartments in July. Financed with federal funds, the \$4.2 million structure contains 85 apartments and areas for tenant activities. The EHA office is now located in the elderly housing project at 277 Water Street.

Charles Hayes and Robert Curran continued as Chairman and Vice-Chairman for the year. Rene Valiquet was reappointed by the Selectmen as an EHA Commissioner for a five year term ending in 1986.

The EHA made \$267,596 in assistance payments via the Section 8 of Existing Housing Program in 1981. Up to 145 lower income Exeter families (132 elderly, 13 non-elderly) receive assistance each month while they live in a quality approved apartment. Participating landlords receive timely rent payments and protection against losses due to damage, unpaid rent or vacancy.

Construction of 15 two, three and four bedroom apartments commenced off Linden Street on November 2, 1981. Completion and occupancy by lower income families with children is expected in March or April, 1982. Maximum annual income for a family of four at "Linden Fields" is \$16,500.

Plans for the rehabilitation of two structures on Portsmouth Avenue and Auburn Street proceeded this past year. Actual renovation should start in the summer or fall of 1982. These buildings will provide 5-7 apartments for families with children.

Person interested in obtaining

information about our programs may call or visit our office, 778-8110.

Respectfully submitted,
Board of commissioners.
Charles G. Hayes,
Robert Curran,
Rene L. Valiquet,
Margaret Duhamel,
Flavia J. Page.
Executive Director,
J. Douglas Guy III.

Planning Board

The membership of the Exeter Planning Board continued a busy schedule of reviewing development proposals in 1981. The Board met 38 times during the year and held 20 public hearings and 18 work sessions, with several additional site inspections. Eleven lots were approved for subdivision and 16 site plan reviews were held, which included approval of 58 condominium units for Bell & Flynn on Kingston Road and a major expansion for TYCO's corporate offices off Hampden Road.

The Planning Board accomplished the revision and printing of its subdivision regulations and incorporated site plan review procedures into a separate document. These site plan review regulations now govern non-residential and multi-family development as empowered by the March 1981 Town Meeting. Under the powers granted to Planning Boards by the State Legislature, two additional ordinances were enacted governing "Excavation for Gravel Pits" and "Access Permits" for entry onto town roads. Work is being completed on a "Capital Improvements Program", an element for Exeter's Master Plan, to guide and coordinate financing of future capital expenditures.

The Board lost the dedicated services of Helen Winebaum in mid-year and William Armstrong, alternate, was appointed to complete her unexpired term. Mary Conklin, a college student interested in town government, received a temporary appointment as an alternate during the summer and Clarence (Bud) Perkins was appointed as a permanent alternate in early fall.

Respectfully submitted,
Rene Valiquet,
Chairman;
Frank Kozacka,
Vice-Chairman;
William Armstrong,
clerk;
Joseph Kenick Jr.,
Victor Baillargeon,
Robert Stewart,
Robert Rowe,
Paul Binette (alternate),
Clarence Perkins (alternate).

Historic District Commission

The Historic District Commission is responsible for reviewing requests for changes within the Front Street and Water Street historical districts for compliance to the district ordinances. The Commission presently consists of six members appointed by the selectmen. One selectman also acts as an additional member of the board.

During 1981 the Commission has reviewed and evaluated applications for changes in existing facades, changes in site features, new construction, changes to existing signage and new signs to be erected within the historic districts. The

Commission has also provided advice and guidance to individuals and businesses seeking information regarding general maintenance and preservation measures appropriate to their specific structures.

In addition to their regular meetings, the Commission has conducted a special meeting in order to help the public better understand the intent of historic district zoning and its application to our town. The meeting included a film and panel discussion with the Commission members. At least one similar meeting is planned for 1982.

Recent federal tax legislation has provided certain incentives for investment in historic structures. The Commission hopes to provide information to those parties considering restoration of properties within the historic districts and expects the information to be available by spring of 1982.

Other items to be addressed by the Commission during 1982 will be changes to the present historic district zoning ordinances. These changes are being considered to help clarify the intent, objectives and purposes of the ordinances and adapt them more specifically to Exeter.

The Commission meets the third Tuesday of every month at the Town Offices. All meetings are open to the public and citizen participation and input is encouraged.

Harris Melia,
Chairman,
Betsy MacDonald,
Vice Chairman,
Jim Samiljan,
Secretary,
Joan Pratt,
Robert Stewart,
John Merkle,
Evelyn Zarnowski.

Exeter Board of Adjustment

The Board held 15 meetings during 1981, at which 38 applications for variances were processed, with 31 granted and 7 denied. Fourteen applications for special exceptions were scheduled, of which 10 were granted and 4 denied. One appeal from an administration decision was granted, as was relief from a condition of a previously granted variance.

Lack of attendance by regular members and alternates has been a continuing problem. At times, the Board found itself having to reschedule hearings for lack of a quorum. The Board's requests for volunteers have been ignored. We urge participation of townspeople by making their interest known to the Board of Selectmen who appoint the members.

Growth in population has created need for housing and conversions have continued to be one of the major requests for special exceptions. Many of the variance requests have indicated Exeter's growth as a commercial center.

Board of Adjustment hearings are scheduled on the first Tuesday of each month, with additional meetings held when necessary. Applications for appeals are due in the Planning Office two weeks prior to a scheduled hearing in order to meet the time schedule for posting notice in the paper and notifying abutters.

Respectfully submitted,

Daniel W. Jones,
Chairman.

Andrew Carnegie, William Buccella,
Francis Doherty, Helen Carr Dix.

Alternates:

Mary Jordan, Peter Corson,
Eugene Lambert, Edward Dyson.

Swasey Parkway

The Trustees wish to thank Ervin F. Ryder for his continued devotion in caring for the Parkway.

We have installed two new benches near the walkway to the Housing for the Elderly and they have seen a lot of usage.

The granite post and pipe fence has been damaged four times this year. We have been able to collect full payment for three of the accidents.

We wish to thank the Police and Highway Departments for their services to us.

We are still operating the Parkway within the income from the trust fund.

Again we hope the people of Exeter look with pride on the Parkway as a place to go and enjoy.

Respectfully submitted,

Francis M. Sinclair,
Douglas Dicey,
William Toland.

Building Inspector

Sincere appreciation is extended to the personnel of all Town departments, contractors, builders and citizens of Exeter, for their cooperation throughout the year.

The building inspector is here to serve you, please do not hesitate to contact me if I can answer any questions, and especially, if you have any doubt as to whether or not a building permit will be necessary for any contemplated new building, remodeling, etc.

As a reminder — any form of improvement or addition to your property must be cleared through this office if the cost is estimated to be over \$1,500, which includes labor

(even if you do the job yourself) and materials. The fee is \$4.00 per \$1,000.

Last year, Town Meeting authorized the new fee schedule and, as a result, our office was able to end the year with a surplus of \$3,000.

In reviewing the "Water Displacement Addition Gallons Per Day" column below, I would like to draw your attention to the increase in 1981, which was the result of the construction of the Elderly Housing Complex on Water Street.

Respectfully submitted,

John D. Lusona,
Building Inspector.

Health Department

I would like to familiarize the people of Exeter of the many duties of the Health Officer. He works for the Town laws and regulations under the Selectmen and also must live up to the State laws. The following are my duties: inspect all the food and drink handlers, public buildings, dining halls, hotels, motels, and rooming houses, dormitories, barber shops, beauty salons, weight and health centers, schools, day centers, foster homes, filling stations, septic tanks, mobile lunch units, church organizations food sales, any land drainage going to our river, rest rooms (where more than five people are employed), and rodent problems. I must see that all frozen food in stores are kept at the right temperature.

In August, 1981, a new law was passed in regards to smoking areas — an area must be designated for smokers and non-smokers in any public building and schools.

We must constantly check forty food establishments, and I estimate there are over one hundred in all.

Any complaints put through my office or home must be looked into.

As your Health Inspector for the past eight years, I can truthfully say I have had the full cooperation from everyone involved. I find this very gratifying.

Yours in Health,
Harold E. Carbonneau,
Health Officer.

Welfare

Despite an increase in the local share costs of Old Age Assistance, Aid to Persons with Total Disability and Intermediate Nursing Care, the year 1981 ended with a surplus in the

Welfare account.

The Direct Relief portion of the Welfare budget is to assist persons whose income is not sufficient to maintain a decent standard of living. Although the number of applicants for assistance increased in 1981, the amount budgeted for this category was sufficient.

The Child Support and Juvenile Delinquent Support accounts were both in the black for 1981. This was due in large measure to receipt of Crime Commission money to start a Mediation Program to deal with the problems of our troubled youth.

The Town of Exeter has wisely chosen to institute a program to prevent juvenile problems in the early stages rather than wait for a very costly solution requiring involvement of the court.

I look forward to the year when our Child Support and Juvenile Delinquent accounts can be deleted from the budget. A comparatively small sum of money spent on prevention of juvenile problems is a much wiser investment.

Respectfully submitted,
Maureen Barrows,
Welfare Administrator.

Council on Aging

The Exeter Council On Aging had another busy year with the senior citizens' taxi program, blood pressure clinics, and other activities. This year the council had to raise \$2,000.00 to help with the taxi program as the budget was cut by the town. It was through the efforts of our council and groups in Exeter that helped us raise the money needed to keep the program in tact that saw us through. The groups that helped with

donations included the Rockingham Nutrition Program, Exeter Golden Age Club, AARP of Exeter, Exeter Bicentennial Commission, and the Exeter Junior Women's Club. We thank them for their support and I am sure our seniors thank you also.

In 1981, we lost one of our council members, John Aniello. He will be missed as John had been very helpful with the Recreation Department's toys for tots program and our taxi program as well as other projects that he gave many hours to. We have had some other council members whose terms have expired. One person is Alice Barrett, someone who has given many hours for our monthly blood pressure program and is still doing her part even though she is no longer a member of the council.

The council is here to help you the senior citizens of Exeter. We urge your support as we continue to provide you with the services that we can.

We would also like to thank the many merchants who have supported our seniors with discounts for the last

six years, and to the new merchants thank you for your help also.

Even though we did not have a part in the housing for the elderly, some of our members did. We are proud that the Town of Exeter has such a fine facility for our senior adults, a tip of the hat to the Housing Authority for the many hours they contributed in order to bring these apartments to Exeter.

Respectfully submitted,
Douglas E. Dicey,
Chairman,
Exeter Council on Aging.

Development Commission

The Exeter Development Commission has leased the remaining land in the Industrial Park on Epping Road. Approximately twenty acres were leased to Jonathan S. Shatmaster, and approximately thirty acres to Exeter Industries.

The terms of the lease will provide sufficient funds to fulfill the financial obligations of the Exeter Development Commission.

Donald E. Chick,
President.

Citizens Advisory Committee

The Citizens Advisory Committee (CAC) is a volunteer group of citizens who serve as an advisory body to the Board of Selectmen and to the Exeter Office of Community Development on matters relating to the Federal Department of Housing and Urban Development (HUD).

Through the efforts of the committee, the Town received a \$364,000 grant for programs to assist low and moderate income persons of the community. These funds were administered through the town's Office of Community Development which Kenneth Ortmann directed, between June, 1980 and August, 1981.

A rehabilitation grant program has assisted owners and renters by upgrading 24 units of residential housing to safe, decent and sanitary standards. The \$90,000 of federal funds combined with more than \$20,000 in private investment has benefitted residents, residential

neighborhoods as well as the local building industry.

The second grant activity, that of public housing, is nearing completion whereby the town has acquired with CD funds, two deteriorated properties on Portsmouth Ave. and Auburn St., which will in turn be transferred to the Exeter Housing Authority for renovation and occupancy by six or seven low-moderate income families.

A new application phase will begin in the spring of 1982, with the Citizens Advisory Committee again seeking recommendations for eligible projects to benefit Exeter, citizen input to members of the CAC or directed to the Planning Office is always welcome.

John Merkle, *Chairman*,
Eleanor Reed,
Robert Stewart,
Barbara Haley,
Linda Gorski,
Martin Day,
Douglas Stockbridge,
William Moore, Jr.
John MacDonald.

Assessor

This year we will be voting on an issue to change the elderly exemption, and if approved it will increase the exemptions as follows: age 65 thru 74 — \$10,000; age 75 thru 79 — \$15,000; age 80 or over — \$20,000; residency requirement — 5 years. The limitation of assets would be changed from \$50,000 — including real estate — to \$30,000 excluding real estate. Income for single person increased to \$10,000 and a married couple will be \$12,000. A separate piece of legislation was passed concerning disclosure of assets to the assessing officials, for those applying for the elderly. This law applies regardless of the outcome of the adjusted change we are voting on.

ITEMIZED SUMMARY OF ASSESSED VALUATIONS

Mosquito Control Commission

Cooperation in Mosquito Control activities with the Towns of Hampton Falls, Newfields, and Stratham helped make 1981 the most successful year since the start of Mosquito Control in Exeter in 1976. Cooperating for the first time with the Town of Stratham, which shares boundaries, marshes, and extensive mosquito breeding sights along the Squamscott River, was one of the main ingredients in the lowest mosquito population we've ever monitored. Along with this, early salt marsh treatments, a dry spring, and a more extensive spring fresh-water larviciding program all helped to make it an enjoyable summer outdoors.

Surveying and larviciding

freshwater sights around neighborhoods from March to May helps reduce or eliminate localized problems caused by freshwater species with a limited flight range. The spring breeding sight survey will be continuing in 1982, thus extending and bettering our services to more neighborhoods throughout town.

Adulticiding, or fogging down the streets of town, is a back-up control measure for those times when larviciding isn't enough. We use this method when our monitoring program shows that adult mosquito populations are at high levels. Adulticiding usually begins in late May and lasts through mid-July after which it is only used when heavy summer rains cause adult populations to increase again in late summer.

Mosquito annoyance in late July and August may be caused by rain-filled tires, pails, treeholes, and even

birdbaths in your own backyard. These objects act as an ideal breeding habitat for a species of mosquito noted for its painful bite which may utilize these containers to produce up to seven thousand (7,000) larvae per square foot of surface water. This problem can be solved easily by occasionally changing the water in a birdbath during this period or by removing, filling or overturning tires, treeholes, and pails. We need everybody's cooperation to help combat Exeter's Mosquito problem and your neighbors will appreciate it too.

The Commission wishes to thank all persons showing interest and cooperating with this program.

Respectfully submitted,
Jude Boucher,
or.

Old Home Night

On June 27, 1981, Exeter celebrated its 9th Annual Old Home Day. It started at 9:00 a.m. with

volunteers husking crates of corn at Phillips Exeter Academy kitchens. The parade began at 2:00 p.m. from Lincoln Street school and its 56 units proceeded to Swasey Parkway. The parade, led by Parade Marshal "Mark Twain", included the Exeter Brass Band, the New England Wheelmen, fire trucks from the area, antique cars, marching groups, numerous floats, and decorated doll carriages and bicycles.

After the parade, games for all ages were held at the Parkway under the direction of Terri Steeves and Barbara DelBuono.

The Norwood Group sponsored a hot air balloon and passed out hundreds of helium filled balloons. Although it was too windy to take passengers for rides, it was a very popular attraction.

Don Doane and his staff from Phillips Exeter Academy prepared another delicious meal consisting of hot dogs, hamburgers, corn on the cob, chips, brownies, soda, and coffee. It was estimated that there were 2,500 people on hand to view the evening's

entertainment which included a dunking booth, the Exeter Brass Band, the baton twirling Carollettes, the annual Tug-of-War contest, the Exeter Fireman's Relief Association raffle, the Exeter Minstrels, and an outstanding show put on by the Exeter Players. The grand finale was a fireworks display presented by Atlas Fireworks.

We would like to express our thanks to Ralston Tree Service, the local banks and businesses who donated candy and prizes, the Exeter Highway and Recreation Department's employees, and all the townspeople who volunteered their help and support.

As Old Home Day is the one time when Exeter area residents can get together for a day of fun and festivities, we hope to see you all next year, June 26, 1982.

Respectfully Submitted,
Exeter's Old Home Day Committee,
Bert and Barbara Young,
Bob and Linda Hartson,
George and Cheryl Sturgis.
